Professional Summary

Results-driven QA Engineer with 3+ years of hands-on experience in manual and automation testing of web, mobile, and API-based applications across 20+ digital properties. Delivered 40% reduction in manual testing effort through Selenium automation. Proficient in SDLC, STLC, Agile/Scrum, Jira, and Postman. Consistently reduced defect leakage rate and improved release stability across multiple production deployments.

Professional Experience

QA Engineer

2025 – Present

IndiaDotCom (Zee Media Corporation Ltd)

Noida, India

- Executed daily sanity testing across **20+ digital properties**, maintaining a **99%+ uptime** quality benchmark with zero critical defects reaching production.
- Performed smoke, sanity, functional, and regression testing across **10+ sprint releases**, reducing post-release defect rate by **30%**.
- Logged and tracked **100+ defects** in Jira with detailed reproduction steps, achieving an average bug resolution turnaround of **under 48 hours**.
- Built **30+ Selenium automation scripts** (Python/JavaScript) covering critical user journeys, cutting regression testing time by **40%** per release cycle.
- Automated **60% of repetitive sanity and regression test cases**, freeing **5+ hours/week** of manual QA effort per sprint.
- Executed automated test suites for **8 key user journeys**; maintained and updated **100% of scripts** within 24 hours of application changes.
- Performed API testing on **50+ endpoints** using Postman, validating status codes, response schemas, and payload accuracy with **0 data integrity failures** in production.
- Conducted cross-browser UI testing across **5 browsers** (Chrome, Firefox, Safari, Edge, Opera), resolving **15+ UI inconsistencies** before release.

Jr. QA Engineer

2023 – 2025

SachFoundation (Zee Media Corporation Ltd)

Noida, India

- Authored and maintained **200+ manual test cases** and test scenarios mapped to user stories, achieving **95%+ functional test coverage** across all modules.
- Reviewed **50+ user stories and requirement documents** per sprint, identifying **20+ ambiguities and coverage gaps** before development began.
- Detected and classified **150+ defects** (critical, major, minor) across **15+ releases**, contributing to a **25% reduction in production defect leakage**.
- Coordinated with **5+ developers** for defect triage and re-testing, ensuring **100% of critical bugs** were resolved and verified before each release.
- Conducted **full regression cycles** (300+ test cases) prior to every production release, ensuring **zero P1 defects** in final deployments over 8 consecutive sprints.
- Supported UAT for **3 major product launches** and authored QA status reports that reduced stakeholder review time by **20%**.
- Actively participated in **daily stand-ups and sprint planning** across **10+ Agile sprints**, contributing QA risk assessments that improved sprint predictability.
- Partnered with product and content teams to define acceptance criteria, improving first-pass acceptance rate by **35%** and reducing defect leakage to production.

Technical Skills

- Testing Types:** Manual Testing, Regression Testing, Smoke Testing, Sanity Testing, Functional Testing, UAT, API Testing, Cross-Browser Testing
- Test Management:** Test Case Design, Test Planning, Test Execution, Defect Reporting, Test Coverage Analysis
- Tools & Platforms:** Jira, Postman, Selenium WebDriver, Appium, Git, Chrome DevTools, CI/CD Pipelines
- Automation Testing:** Web Automation using Selenium with Python, Mobile Application Automation using Appium, API Testing & Automation
- Methodologies:** SDLC, STLC, Agile/Scrum, Defect Life Cycle, Root Cause Analysis, Continuous Integration & Continuous Deployment (CI/CD)
- Programming Languages:** Python, JavaScript (Basic), C, C++, HTML, CSS

Key Projects & Expertise

- Pinewz Web Application** *Manual + Automation Testing*
- Designed **150+ test cases** for end-to-end regression; identified **40+ bugs** across 6 major releases, reducing user-reported issues by **30%**.
- Pinewz Android / iOS Application** *Mobile Application Testing*
- Validated app functionality across **10+ device/OS combinations**; detected **25+ platform-specific defects** before App Store and Play Store releases.
- AI Layers API Testing** *API Testing – Postman*
- Tested **50+ REST API endpoints**; created **100+ Postman test scripts** validating response codes, schemas, and data correctness with **0 data integrity failures**.
- CMS End-to-End Testing + Automation Pipeline** *Selenium / Regression Automation*
- Built a **Selenium-based automation suite** covering the full CMS content lifecycle; automated **60% of regression scenarios**, cutting QA cycle time by **40%**.
- WION / PWA Testing** *Cross-Browser & Performance Testing*
- Performed cross-browser and PWA feature testing across **5 browsers and 3 network conditions**; resolved **20+ rendering and performance issues** pre-launch.

Education

- Bachelor of Science (B.Sc.) in Computer Science** **2023 – 2025**
Guru Jambheshwar University of Science and Technology *Hisar, India*
- Senior Secondary (12th Grade) – CBSE** **2022 – 2023**
Central Board of Secondary Education
- Matriculation (10th Grade) – CBSE | NCC ‘A’ Certificate** **2020 – 2021**
Central Board of Secondary Education
